

Gastro Health

Now You Can Take It in the Gut

Scientific studies have determined that the Helicobacter pylori bacteria is the primary cause of stomach ulcers. Back in 1994, NSP set out to find an effective herbal combination to combat this nagging microbe. After two intensive years of search, NSP developed Gastro Health. Ulcer victims are sure to benefit from the soothing strength of this unique combination.

BENEFITS

- Inhibits the growth of the dangerous *H. pylori* bacteria.
- Soothes the stomach.
- Minimizes gastric irritation and discomfort.

NSP ADVANTAGE

Two long years of research went into this unique formula. Only NSP combines the power of pau d' arco extract, clove powder extract and *Inula racemosa* to give you safe and friendly support. The special blend inhibits *H. pylori* while having minimal effect on friendly bacteria. That means stomach comfort along with the digestive support you need.

SCIENTIFIC SUPPORT

Research scientists rocked the world with the discovery that many stomach ulcers are actually caused by *H. pylori*, and not by stress, as conventional wisdom had long held. Extensive NSP studies have shown the herbs contained in Gastro Health deter the activity of *H. pylori*, while they leave friendly bacteria alone!

INGREDIENTS

- Pau d'arco has been known to aid the body's fight against infections, perhaps because of its natural astringent qualities. It is also a diuretic and anti-pyretic. In actual NSP testing, pau d'arco proved bactericidal against *H. pylori*.
- Clove has been used with a positive effect against stomach ulcers.
- *Inula racemosa* has been used traditionally against fungus and bacteria.
- Deglycyrrhized licorice has been used to treat ulcers, reducing them drastically within a single month. Licorice is well known for its benefits to the glandular, intestinal and respiratory systems.
- Capsicum is added to counter irritation. Its high level of beta-carotene is thought to be helpful in healing the surface cells of mucous membranes.

RECOMMENDED USE

Take 2 capsules with a meal twice daily, plus 2 capsules at bedtime with a glass of water.

COMPLEMENTARY PRODUCTS

- **Nutritional:** Licorice, Bifidophilus, Capsicum, Whole Leaf Aloe Vera.
- **Homeopathic:** Distress Remedy, Inflammation, Pain.
- **Essential Oils:** Thyme Linalol BIO, Clove Bud BIO.
